SUMMARY

Motivated Computer Science and Technology undergraduate at Uva Wellassa University of Sri Lanka with hands-on full-stack development experience building and deploying production-grade web and mobile applications. Proficient in Agile software development, REST API design, version control with Git, and cloud deployment. Strong problem-solving, debugging, and communication skills with the ability to rapidly learn and adapt to new technologies. Seeking a **Software Engineering Internship** to contribute to real-world projects and grow as a collaborative team member.

TECHNICAL SKILLS

Languages & Frontend: JavaScript (ES6+), Python, Java, SQL, React.js, Next.js, React Native, Tailwind CSS, HTML5, CSS3

Backend & APIs: Node.js, Express.js, FastAPI, Django, PHP, RESTful API Design, JWT Authentication, OAuth 2.0

Databases & Cloud: AWS (EC2, S3, DynamoDB), MongoDB, MySQL, PostgreSQL, Firebase, Supabase, Firebase Firestore

DevOps & Tools: Git, GitHub, GitHub Actions, CI/CD Pipelines, Vercel, Postman, Figma, Agile/Scrum

Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, Software Development Life Cycle (SDLC), Unit Testing, Responsive Web Design, Role-Based Access Control (RBAC)

Languages: English (Advanced), Tamil (Native)

PROJECTS

ServiceHub – Home Service Management System

Apr 2025 – Sep 2025

Technologies: React.js (Vite), PHP 8.x, MySQL, PDO, JWT Authentication, PHPMailer

- Designed and developed a full-stack Home Service Management System with a responsive interface to streamline service booking, provider management, and administrative operations.
- Implemented role-based access control (RBAC) for Customers, Service Providers, and Admins, and developed RESTful APIs using PHP and MySQL (PDO) for managing bookings, reviews, and notifications.
- Integrated JWT-based authentication and OTP email verification using PHPMailer, applying the **Waterfall software development methodology** and input validation to ensure system security and reliability.

DonorNet – Blood Donor Finder Mobile Application

Dec 2024

Technologies: React Native (Expo), Firebase Authentication, Firebase Firestore

- Developed a cross-platform mobile application using React Native (Expo) to help users search and connect with nearby blood donors based on blood group and city.
- Implemented secure email/password authentication with Firebase Authentication and role-based navigation for donors and seekers, including donor profile management.
- Integrated **Firebase Firestore** for real-time donor data management, delivering a responsive and seamless user experience across mobile devices.

AutoTrack Web – Vehicle Maintenance & Service Tracking System

Feb 2025

Technologies: React.js, Python Django, PostgreSQL, Tailwind CSS, Axios

- Built a full-stack web application for vehicle owners to manage vehicles, track complete service history, and monitor maintenance costs through a responsive interface.
- Developed **RESTful APIs** using Python Django (Django REST Framework) with PostgreSQL integration for secure vehicle and service record management.
- Implemented role-based authentication, protected routes, service reminders, and responsive UI using Tailwind CSS with Axios for seamless frontend-backend communication.

DrHospital – Advanced Hospital Management System

Jun 2025

Technologies: React.js (Vite), Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Stripe, OpenAI API

- Developed a full-stack hospital management system with role-based access for Patients, Doctors, and Administrators, supporting appointment scheduling, medical reports, and online payments.
- Built secure RESTful APIs using Node.js, Express.js, and MongoDB, implementing JWT authentication, Email OTP verification, Stripe payment integration, and medical report uploads.
- Integrated OCR (Tesseract.js, PDF-Parser) and the OpenAI API to analyze uploaded medical reports and generate AI-powered summaries and insights for healthcare professionals and patients.

EDUCATION

Uva Wellassa University of Sri Lanka

BSc (Hons) in Computer Science and Technology

Nov 2023 – Present

Jaffna Hindu Ladies' College

GCE A/L – Physical Science Stream

Jan 2013 – Feb 2022

CERTIFICATIONS

- **Programming in Python 2** – University of Moratuwa, Dec 2025
- **Introduction to Programming Using Python** – University of Moratuwa, Nov 2025
- **UVAXTREME 1.0 Hackathon** Participant – Uva Wellassa University, Jun 2024
- **Diploma in Information Technology** – DMI Computer Education, Oct 2023

EXTRACURRICULAR ACTIVITIES

- **Student Member** – IEEE (Member ID: 100428712)
- **Student Member** – MS Club
- **Treasurer** – FOSS Community
- **Board of Prefects** – Jaffna Hindu Ladies' College, 2020
